

After Hours Emergencies - Call 911

The Operations Center is located at 100 Wood Lane and houses Village vehicles, equipment, materials, parts and supplies. There are currently 12 DPW employees and 2 supervisors, all of whom are Heavy Equipment Operators with CDL licenses. The DPW equipment includes loaders, trucks, pickup trucks, plows, soil shredder, wood chipper, trailers, etc.

The department's functions include the maintenance of Village streets, traffic devices, Village-owned buildings, property, equipment, water distribution system, storm sewers, sanitary sewers, Village trees, parks, and two cemeteries. The DPW picks up brush and leaves in the spring and fall; plus, plows and salts roads during winter months.

The employees of the Department of Public Works are committed to providing reliable, professional services that enhance the quality of life for Newark residents to the best of their ability.
