

SuperGen Products

SuperGen Products started in 2010 with their first retail location established in 2012 in Newark, New York and now our second location in Azusa, CA. With over forty years in design and innovation, we strive to create the highest of quality products to make life easier and efficient. We have designed, manufactured and marketed 5 new generator accessories that have taken portable power use to a new level.

SuperGen Products is an authorized refurbisher and distributor for the full line of Champion Power Equipment products, including Generators, Pressure Washers, Log Splitters, Winches and Trash Pumps. All refurbishing is done at our New York facility and is held to the highest of standards.

Along with generator accessory development and distribution, our team is here to help. We strive to bring the best customer service to the table with technicians available by phone 24/7.

We now employ 7 employees locally and have expanded to include our 122,000 sq. ft. warehouse on 320 Hoffman Street.

We also operate the only FedEx Authorized Ship Center in Wayne County at our 1173 East Union St. storefront. Drop off your Express, Ground or Freight items to send worldwide. We aim to help our community build business and reach customers and family more affordably. This service has added to the growth of our business while providing greater access for the citizens of Newark.

We have several new growth plans on the drawing board. Stop in and visit us. Ask us how we can help you protect your family with emergency power or check out how we can meet your shipping needs. Our hours are 9-5 M-F and 9-4 on Saturday.
